ABOUT ME

I am a passionate front-end developer with strong skills in HTML, CSS, JavaScript, and basic React. I have hands-on experience developing real-time web applications for clients and participating in competitive hackathons. I enjoy creating responsive, interactive, and visually appealing websites, and I am confident in working with clients to bring their ideas to life. I am eager to grow, contribute to team projects, and continue building meaningful web experiences.

EDUCATION

SNS COLLEGE OF ENGINEERING   2024 - 2028
Computeer science and design

SKILL

- HTML
- React basic

- CSS
- Git

- Java Script
- UI/UX Design

WORK EXPERIENCE

Front-End Developer (Freelance Project)   **2025 APR**
NM Mobiles – Mobile Accessories & Services Shop

- Designed and developed a fully responsive front-end website using HTML, CSS, and JavaScript.
- Worked directly with the client to understand their business needs and translated them into a functional website.
- Created engaging animations and interactive UI elements for better user experience.
- Delivered a mobile-friendly and optimized website.

Inter-College Hackathon – AR/VR App

                                                                              2025 MAR
- Participated in an inter-college hackathon and developed an AR/VR-based prototype application.
- Contributed to the UI design, animations, and front-end functionality using JavaScript.
- Collaborated with team members under time constraints to build and present the project.
- Helped the team secure third place among several competing teams.
